

To Whom it may concern:

Mike Eidlin and his company, Homeowners Handyman Services, have done a wide range of jobs for us over a period of 16 years.

Mike has helped us with carpentry work, painting, gutter repair, drain re-routing, deck re-building, ceramic tile installation and many other services. He is a problem solver and is good at suggesting creative solutions. His advice and help with preventive maintenance and his help in catching minor concerns before they become major problems, has saved us money and aggravation.

Throughout the years, Mike and his staff have exhibited the highest degree of professionalism. We leave our house key with him and we don't have the slightest concern about his having access to the house while we are away. His team is careful and considerate of our house, pets, kids and elderly parents. And, the work place is always left clean and orderly when he finishes.

He communicates clearly and his completion and cost estimates are accurate – an area of competence that is difficult to find.

We have recommended Mike to a number of friends and neighbors, and they have been similarly pleased with his work. We recommend his services without reservation, and would be glad to answer any questions you might have, or talk with you further about specific areas of concern.
